

D.A.V PUBLIC SCHOOL,SASARAM
CHEMISTRY FOR CLASSES 7A,7B,7C & 7F
FIRST WORKSHEET (ACIDS,BASES & SALTS)

Do all the questions:-

Q.1 What is meant by physical state ?

Q.2.What are acids ?

Q.3 What are bases ?

Q.4 Suggest two materials related to our daily life which have acids in them.

Q.5 Suggest two materials related to our daily life containing bases.

Q.6 Name the two categories of acids.Give two examples of each.

Q.7 Define mineral acids.

Q.8 Define organic acids.

Q.9 Why sulphuric acid is known as the 'king of chemicals' ?

Q.10 Name any two natural sources of oxalic acid.

Q.11 Write name of any two natural sources of citric acid.

Q.12 Write two natural sources of tartaric acid.

Q.13 Write down three natural sources of formic acid.

Q.14 What do you mean by strong acids ?

Q.15 What do you mean by weak acids?

Q.16 Give four examples of strong acid.

Q.17 Give four examples of weak acid.

Q.18 What are concentrated acids ?

Q.19 What are dilute acids ?

Q.20 Write down the chemical formula of the following :-

a) Hydrochloric acid

b) Sulphuric acid

c) Nitric acid

d) Sulphurous acid

e) Phosphoric acid

f) formic acid

g) acetic acid
