8. School should make sufficient arrangement of sanitization, digital thermometer, hand washing spots, fresh & clean drinking water should be the key.
9. Teachers reporting should be made to the school as early as possible so that sufficient arrangement should be made with adequate facilities before students start reporting to school.
10. Normal transport arrangement is also the key to make school opening programme successful.
11. Punctuality and timeline arrangement as per schedule is adhered to maintain.

It is advisable to make school open as early as possible without any more delay to avoid further more damage to education system and preventing threat of teachers losing job which is not in the favour of community as a whole as teacher is one of the major soldier for the nation and education is the soul of the nation.

Thanks for your support and cooperation.
